# OVERCOME OBSTACLES SCHOOL CHALLENGE

## WHAT IS OVERCOME OBSTACLES?

At MRI, we overcome obstacles every day. Now it's your turn to help! **Overcome Obstacles** is MRI's annual educational fundraiser that focuses on promoting the abilities of children and adults with developmental disabilities in Macon County.

On Friday, April 24th we take our programming to Central Park and broadcast live with WAND and Cromwell radio throughout the day educating the public on the impact MRI's services have on over 800 children and adults in the community. We even sell Krispy Kreme donuts and host a real obstacle course! Which is where we hope you will come in....

## HOW CAN I GET INVOLVED?

- Recruit a minimum of 16 students from your school to commit to raising at least \$50 each for MRI
- Get creative with extra fundraiser ideas your school can do to raise additional funds (like a dress up day) ...their might be a special incentive for the school that raises the most money!
- Challenge a rival or neighboring school to participate!

## INCENTIVES FOR PARTICIPATING

- Besides bragging rights...schools that raise at least \$800 by April 3rd will get their school logo featured on our Overcome Obstacles banner at the event
- Students who raise \$50 are invited to join us at Overcome Obstacles and participate in our inflatable obstacle course - they will also get an Overcome Obstacles with MRI t-shirt!
- A representative from the school will have the opportunity to promote their school on air with Cromwell radio.
- **If you're school raises the most money....you'll win \$1,000 for your school!**

***Please contact Rachel Moran at 217.875.8850 or  
rmoran@maconresources.org to get your school signed up***
